

Completing Adaptive Practice Assignments

1) If your course has Adaptive Practice you will find this in your Chapter Module

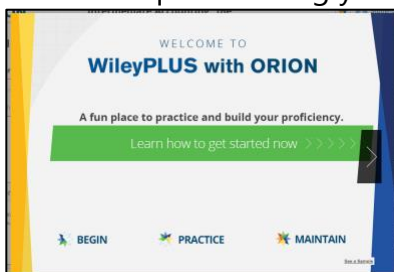

2) If your instructor has assigned this for credit you will see a due date, and total point value located until the Adaptive practice link

3) You will be asked to load in a new window

4) The first time accessing Adaptive practice you have to complete a quick introduction and short quiz showing you how to use, and how to earn the best score.

5) Once you load the Chapter Adaptive Practice you will be able to begin your session

Begin

- 6) You will be taken into your Pre-Diagnostic Quiz where you will complete between 20-30 questions to get a basic level of knowledge for the chapter. After your Pre-Diagnostic is complete you can choose to study areas you are struggling or practice.
- Study will take you to the Learning hub for that Learning Objective to view the eText, and all related resources
 - Practice will allow you to practice questions around this Learning Objective to help you improve your Proficiency score.
